

Creative Tech Africa

2025 African AI Prompt Library

62 Proven AI Prompts to Help African Professionals Win Jobs, Negotiate Better Pay, and Compete Globally in 2025

By Creative Tech Africa

Welcome

Africa's AI talent is rising — but most AI career advice is not built for our realities.

This free Prompt Library was created by **Creative Tech Africa** to help African professionals turn AI tools into **real career outcomes**: interviews, offers, better pay, and global opportunities.

These prompts are practical, tested, and designed for **Lagos, Nairobi, Joburg, and remote-first roles worldwide**.

How to Use This Library (Very Important)

Do not copy prompts blindly.

Every prompt follows a **5-Step Prompt Engineering Framework**. Customize the **Context** for your situation, then iterate.

The 5-Step Prompt Engineering Framework

 **Task – What do you want the AI to do?**

Be clear and specific.

 **Context – Who are you and where?**

Your role, experience level, country, and goal.

 **References – What should the AI use?**

Job descriptions, standards, examples, or links.

Evaluate – How should success be judged?

Clarity, relevance, recruiter appeal, confidence.

Iterate – Improve the output

Rewrite, localize, shorten, or level-up.

SECTION A: Job Applications & ATS Optimization (12 Prompts)

A1. ATS-Optimized Cover Letter (Africa → Remote)

Task: Write a job application cover letter

Context: I am an African-based professional applying for a remote role in tech
